Email Template for Partners

The Wyoming Cancer Coalition's survivorship workgroup is working to increase access, awareness, and availability of the resources statewide for those impacted by cancer. In partnership with Wyoming 211, the workgroup would like to create a centralized repository with up to date information to help patients and navigators find relevant information quickly and easily.

In order to accomplish this goal, we are asking for organizations who provide a service or resource to register with Wyoming 211. Registration is free and is updated annually. Please visit <https://wyoming211.org/providers/> to register today.

I'd like to personally invite your organization to complete your registration today. If you're already registered, please take a moment to confirm your information is updated and accurate.
