

# WYOMING CANCER COALITION

The **Wyoming Cancer Coalition (WYCC)** is a group of Wyoming residents and supporters with a passion to decrease the burden of cancer in Wyoming. The coalition works together to promote and implement the Wyoming Cancer Control Plan by coordinating efforts across the state.

The coalition focuses on reducing cancer disparities, increasing awareness of the cancer burden in the state, and improving outcomes for cancer patients. WYCC members are policy makers, advocates, individuals, businesses, cancer survivors, care givers, family members, health care providers, hospitals, insurers, non-profit and volunteer organizations, the public health community, state and local government, and others committed to cancer prevention and control.

As a member of the WYCC, responsibilities include implementing the state-wide Cancer Control Plan and ensure the plan represents the many areas of cancer and the people of Wyoming, participate in workgroup activities and projects, attend in-person meetings held twice a year, contribute information about local cancer-related events and news articles to the monthly WYCC newsletter, and recruit potential members.

If you are interested in being part of the WYCC, please complete the following information.
